INTRODUCTION

On the following pages you will find several **ADEPTUS CUSTODES** Detachments you can select from, as described in the Core Rules (see the [Select Detachment Rules](#) step). If you are playing a [Crusade battle](#), see the equivalent step in the [Mustering a Crusade Army](#) section of the main Crusade rules. Each Detachment is a themed fighting force that focuses on one particular combat style employed by the Adeptus Custodes - the rules they include are as follows:

1 DETACHMENT RULE

The Detachment rule listed here will apply to either your whole army or to particular units within it. If any additional restrictions or benefits apply to a Detachment, they'll be listed here. This can include units your army either must include or cannot include, as well as additional keywords some of your units may gain.

2 ENHANCEMENTS

When mustering your army, your chosen Detachment enables you to upgrade **CHARACTERS** using the Enhancements listed here, as described in the Core Rules (see the [Select Units](#) step).

If you are playing a Crusade battle, you can instead use the [Renowned Heroes Requisition](#) to give your **CHARACTERS** Enhancements, as described in the main Crusade rules.

3 STRATAGEMS

Your chosen Detachment gives you access to the Stratagems listed here in addition to the Core [Stratagems](#) listed in the Core Rules. During the battle, you can spend Command points (CP) to use these Stratagems.

ARMY RULES

MARTIAL KA'TAH

Specialised disciplines mastered by Custodians over decades if not centuries, each ka'tah equips its practitioner to overmaster any foe in a particular discipline or philosophy. Martial katahs allow the warriors of the Adeptus Custodes to deploy stances, movements, war philosophies and lethal skills that enhance their already terrifying martial prowess and focus it against particular threats.

Each time a unit from your army with this ability is selected to fight, select one of the Ka'tah Stances below. Until that unit has finished making its attacks, the selected Stance is active for it and it gains the relevant ability:

Dacatarai Stance

Those Custodians skilled in the Dacatarai Ka'tah are able to turn their enemies numerical advantage against them. Reserved for when the Custodians must battle seething hordes of foes, this stance sees them reap a terrible tally

Melee weapons equipped by models in this unit have the [\[SUSTAINED HITS 1\]](#) ability.

Rendax Stance

Masters of Rendax are superlative monster and war machine hunters. They have studied every aspect of how to do battle with a foe far larger than themselves, how to evade its powerful attacks, exploit its blind spots and lay it low.

Melee weapons equipped by models in this unit have the [\[LETHAL HITS\]](#) ability.

TALONS OF THE EMPEROR

DETACHMENT RULE

REVERED COMPANIONS

The Custodians and the Silent Sisters often fought as one during the earliest days of the Imperium. Ten thousand years on, they have lost none of the unity of doctrine and purpose that makes them such a deadly combination.

ANATHEMA PSYKANA units from your army gain the following ability:

Null Aegis (Aura): While an **ADEPTUS CUSTODES** unit is within 6" of this unit, models in that unit have the [Feel No Pain 5+](#) ability against [Psychic Attacks](#) and [mortal wounds](#).

All other **ADEPTUS CUSTODES** units from your army gain the following ability:

Deadly Unity (Aura): While an **ANATHEMA PSYKANA** unit is within 6" of this unit, each time a model in that **ANATHEMA PSYKANA** unit makes an attack, add 1 to the [Hit roll](#).

EFFECT: Until the end of the phase, each time a melee attack targets your unit, subtract 1 from the Hit roll.

NULL MAIDEN VIGIL

DETACHMENT RULE

CREEPING DREAD (AURA)

The instinctive fear caused by the Pariah gene spreads like a terrible pall before the cadres of the Silent Sisterhood.

In the [Battle-shock](#) step of your opponent's [Command phase](#), if an enemy unit that is either a **PSYKER** unit or below its [Starting Strength](#) is within 12" of one or more **ANATHEMA PSYKANA** models from your army, that enemy unit must take a [Battle-shock](#) test. If that unit is [Below Half-strength](#), it must subtract 1 from its [Battle-shock](#) test this phase instead.

Designer's Note: This means that all enemy **PSYKER** units within range of this [Aura](#) ability and all enemy units within range of this [Aura](#) ability that have lost one or more models must take a [Battle-shock](#) test in your opponents [Command phase](#), not just those that are [Below Half-strength](#).

KEYWORDS

If you select this Detachment, **PROSECUTORS** units from your army have the **BATTLELINE** keyword.

ENHANCEMENTS

ANATHEMA PSYKANA model only. Add 1 to the Attacks, Strength and Damage characteristics of the bearers melee weapons. While the bearer is within Engagement Range of one or more enemy **PSYKER** units that are Battle-shocked, add 2 to the Attacks, Strength and Damage characteristics of the bearer's melee weapons instead.

STRATAGEMS

DESPERATION'S PRICE

WHEN: Your Shooting phase or the Fight phase.

TARGET: One ANATHEMA PSYKANA unit from your army that has not been selected to shoot or fight this phase.

EFFECT: Select either the [LETHAL HITS] or [SUSTAINED HITS 1] ability. Until the end of the phase, weapons equipped by models in your unit have the selected ability, but models in your unit can only target **PSYKER** units with their attacks.

ANATHEMA BLADEMASTERY

NULL MAIDEN VIGIL – BATTLE TACTIC STRATAGEM

The Vigilators train tirelessly in the art of the swift, beheading strike, with a particular emphasis on the swift elimination of enemy witches.

WHEN: Fight phase.

TARGET: One VIGILATORS unit from your army that has not been selected to fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes a melee attack, you can re-roll the Hit roll. If the target of that attack is Battle-shocked or a **PSYKER**, you can re-roll the Wound roll as well.

PSY-CHAFF VOLLEY

NULL MAIDEN VIGIL – STRATEGIC PLOY STRATAGEM

Prosecutors can fire psy-chaff bolts whose esoteric emissions weaken those targets not slain outright.

WHEN: Your Shooting phase.

TARGET: One PROSECUTORS unit from your army that has just shot.

EFFECT: Select one enemy unit hit by one or more of those attacks. Until the start of your next turn, while your unit is on the battlefield, that enemy unit is prosecuted. While a unit is prosecuted, each time an ANATHEMA PSYKANA model makes an attack against that unit, improve the Armour Penetration characteristic of that attack by 1. While a **PSYKER** or Battle-shocked unit is prosecuted, each time a model in that unit makes an attack, subtract 1 from the Hit roll.

PURGATION SWEEP

NULL MAIDEN VIGIL – BATTLE TACTIC STRATAGEM

Witchseekers know their role in combat is to spread indiscriminate carnage through the foe's ranks.

WHEN: Your **Shooting phase**.

TARGET: One **WITCHSEEKERS** unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, add 1 to the Attacks characteristic of **Torrent** weapons equipped by models in your unit. If such a weapon targets a **PSYKER** or **Battle-shocked** unit this phase, add 2 to its Attacks characteristic instead.

PSYCHIC ABOMINATIONS

NULL MAIDEN VIGIL – STRATEGIC PLOY STRATAGEM

Enemies must overcome disorienting waves of revulsion in order to even focus upon Null Maidens.

WHEN: Your opponent's **Shooting phase**, just after an enemy unit has selected its targets.

TARGET: One **ANATHEMA PSYKANA INFANTRY** unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, your unit has the **Stealth** ability, and **Battle-shocked** and **PSYKER** models can only select your unit as a target of a ranged attack if they are within 12".

EFFECT: Select one friendly unit (excluding Battle-shocked and Attached units) within 2" horizontally and 5" vertically of your model that it could lead (as described in the Leader section of its datasheet). Your model attaches to that unit as a Leader. Change that unit's Starting Strength accordingly.

SOLAR SPEARHEAD

Within the deepest engine vaults of the Imperial Palace, the ancient and mighty vehicles of the Custodians reside. Auramite-clad combat walkers bristling with arcane weapons are roused from stasis, ready to be unleashed upon the galaxy's battlefields. Venerable Land Raiders as old as the Imperium are awoken by complex rituals and prepared for war. When battle dawns, these dread engines of destruction stride or rumble towards the cowering foe, their guns emitting furious torrents of destruction. Those brave or foolish enough to stand before this armoured spearhead are crushed beneath the tread of auric battle tanks or smashed to a bloody pulp by wrathful interred champions.

DETACHMENT RULE

AURIC ARMOUR

The venerable war engines of the Adeptus Custodes possess aggressive machine spirits.

- While an **ADEPTUS CUSTODES VEHICLE** unit from your army is at Starting Strength, unless that unit is an **AIRCRAFT** or it is Battle-shocked, add 2 to the Objective Control characteristic of models in that unit.
- While an **ADEPTUS CUSTODES VEHICLE** unit from your army is below Starting Strength, each time a model in that unit makes an attack, re-roll a Hit roll of 1.
- While an **ADEPTUS CUSTODES VEHICLE** unit from your army is Below Half-strength, each time a model in that unit makes an attack, re-roll a Hit roll of 1 and re-roll a Wound roll of 1.

LIONS OF THE EMPEROR

Many of the galaxy's warrior cultures accept the time-honoured truth that there is greater strength in numbers. Not so for the champions of the Adeptus Custodes, the Lions of the Emperor. Each of them is an army unto themselves, a warrior of legend gifted with terrifying strength, armoured in nigh-impenetrable golden plate and possessing limitless resolve. When the greatest Custodians take to the field at once, those auric-armoured champions have no need to pool their resources in order to smite their foes. Relying instead upon their superhuman strength and mastery of martial ka'tahs, they hurl themselves into the midst of the enemy, sweeping aside gunlines, eviscerating rampaging monsters and obliterating enemy war machines with terrifying ease.

DETACHMENT RULE

AGAINST ALL ODDS

The Adeptus Custodes are outnumbered on every battlefield upon which they fight, yet no matter the foe, and no matter their number, the Lions of the Emperor will prevail.

Each time a model in an **ADEPTUS CUSTODES** unit from your army (excluding **VEHICLES**) makes an attack, if there are no other friendly units within 6" of that unit, add 1 to the **Hit** roll and add 1 to the **Wound** roll.

Praesidius

25 pts

Fashioned by the Terran armourer Annah Tsvochakin in the latter years of the 32nd millennium, the stunningly worked Praesidius is a singular artefact. Nestled within its golden form are a series of microshield generators and stealth emitters. Employing a modification of displacer technology, the shield generates small localised displacement bubbles at the point of impact, literally beaming bolts, bullets and the tips of blades harmlessly away from its bearer.

ADEPTUS CUSTODES model only. The bearer has the Lone Operative and Stealth abilities.

Fierce Conqueror

15 pts

This Captain-Commander has trained extensively to face multiple foes at once, knowing that the Custodes will always be outnumbered.

RESTRICTIONS: You cannot use this [Stratagem](#) on the same **ADEPTUS CUSTODES CHARACTER** model more than once per battle.

DEFIANT TO THE LAST

LIONS OF THE EMPEROR – STRATEGIC PLOY STRATAGEM

The harder the battle, and the heavier their losses, the more resolute the Lions of the Emperor become.

EFFECT: Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, roll one D6, adding 2 to the result if that model has the **CHARACTER** keyword. On a 4+, do not remove it from play; the destroyed model can fight after the attacking unit has finished making its attacks (when doing so, it is treated as having 1 wound remaining), and is then removed from play.

EFFECT: That unit is split into separate units, each containing one model. These new units each have a [Starting Strength](#) of 1.

MANOEUVRE AND FIRE

LIONS OF THE EMPEROR – STRATEGIC PLOY STRATAGEM

The Adeptus Custodes are unrelenting in their advance, laying down punishing fire even as they manoeuvre to new positions.

WHEN: Your **Movement phase**, just after an **ADEPTUS CUSTODES** unit from your army **Falls Back**.

TARGET: That **ADEPTUS CUSTODES** unit.

EFFECT: Until the end of the turn, your unit is eligible to shoot and **declare a charge** in a turn in which it **Fell Back**.

SWIFT AS THE EAGLE

LIONS OF THE EMPEROR – STRATEGIC PLOY STRATAGEM

Although every Custodian is devastatingly fast on the battlefield, with preternatural reactions to match, the Lions of the Emperor are outstanding even among their peers.

WHEN: Your opponent's **Shooting phase**, just after an enemy unit has shot.

TARGET: One **ADEPTUS CUSTODES** unit from your army (excluding **VEHICLE** units) that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Your unit can make a **Normal move** of up to D6".

CRUSADE RULES

In this section you'll find additional rules for playing Crusade battles that are bespoke to **ADEPTUS CUSTODES** units.

This section contains the following rules:

MAGISTERIUM LEX ULTIMA

Your **ADEPTUS CUSTODES** Crusade force will set out on key [Imperatives](#) in the name of the Emperor, accomplishing amazing feats swiftly for unique rewards. But if they fail to complete these tasks, they will suffer consequences in the form of [Dishonour](#).

BATTLE SCARS

Themed to the unique nature of **ADEPTUS CUSTODES**, these [Battle Scars](#) represent long-lasting effects units from your Crusade force may come to carry.

AGENDAS

ADEPTUS CUSTODES armies can attempt to achieve unique [Agendas](#) in addition to those found in other publications. These represent the factions unique goals and their particular methods of waging war.

REQUISITIONS

ADEPTUS CUSTODES armies have access to a number of bespoke [Requisitions](#) in addition to those found in other publications.

BATTLE TRAITS

As they gain experience and prowess, **ADEPTUS CUSTODES** units in your Crusade force can be given one of the [Battle Traits](#) in this section instead of one presented elsewhere.

CRUSADE RELICS

In addition to the [Crusade Relics](#) presented in other publications, **ADEPTUS CUSTODES CHARACTER** models can claim one of the Crusade Relics found here.

ARTEFACTS OF THE VAULTS

As well as their Crusade Relics, **ADEPTUS CUSTODES** can borrow unique Artefacts of the Vaults to assist in completing the Magisterium Lex Ultima.

CRUSADE BADGES

Here you will find three [Crusade Badges](#) representing goals you can set yourself when campaigning with your Crusade force. Once one is achieved, you could set yourself a new goal, or take the opportunity to start a new Crusade force.

MAGISTERIUM LEX ULTIMA

As far back as records exist of the Adeptus Custodes, they have held the Magisterium Lex Ultima, making them answerable to only one - the Emperor. Such a mark of office holds them above all law and command save for the direct authority of the Master of Mankind, and affords them the incontestable jurisdiction to pursue Imperative Endeavours as they feel is appropriate.

If your [Crusade force](#) includes **TRAJANN VALORIS** or any other **SHIELD-CAPTAIN** units and you are not currently on an Endeavour, you can claim the [Magisterium Lex Ultima](#) before a battle. If you do, you must commence an Endeavour for your Crusade force. This entails a collection of objectives (known as [Imperatives](#)) that you must attempt to complete in sequence over a series of battles. Doing so will earn you [Endeavour Rewards](#), but failure will bring about [Dishonour](#).

When you commence an Endeavour, you must determine its three Imperatives from the Imperative tables. To do this, roll one D6 to decide which Imperative table to use, then another D6 to determine an Imperative from that Imperative table. You cannot determine the same Imperative for each Endeavour more than once (roll again until a new Imperative is determined). Once you have determined all three of your Imperatives, make a note of them, and the order in which they were generated, in your [Order of Battle](#). Your Endeavour has now commenced and you must complete its Imperatives one at a time, starting with the first Imperative you determined - this is known as the active Imperative.

At the end of a battle, if you have completed the active Imperative, mark that Imperative as completed in your Order of Battle. The next Imperative you determined is now active for subsequent battles. Once you have completed all of your [Endeavour's Imperatives](#), you can claim an Endeavour Reward, and can then claim the Magisterium Lex Ultima once more.

You can abandon an Endeavour at the end of a battle. If you do, and you have completed two out of three Imperatives, you can randomly select an Endeavour Reward from the two you have completed, and the other Endeavour Reward is lost.

In addition, if you have not completed all of your Endeavour's Imperatives within nine battles of beginning that Endeavour, then it is abandoned.

When an Endeavour is abandoned, you must select a Dishonour, and can then start a new Endeavour before the next battle.

- You control three or more objective markers.
- You control at least double the number of objective markers that your opponent does.

MARTIAL SUPREMACY

The blood-price of defying Terra must be rendered insupportable.

At the end of a battle, at least twice as many enemy units were destroyed in that battle than units from your [Crusade army](#).

INSPIRATIONAL EXAMPLE

At the end of the battle, two or more enemy units were destroyed by melee attacks made by an **ADEPTUS CUSTODES CHARACTER** model from your [Crusade army](#).

ENDEAVOUR REWARDS

If your [Crusade force](#) is on an [Endeavour](#), once you have completed all of your [Endeavour's Imperatives](#) you can claim an Endeavour Reward. If you have completed all three Imperatives, you may choose which reward you would like to claim from those three. If you abandon your Imperatives after only completing two, you can randomly claim one reward of the two completed Imperatives.

Some Endeavour Rewards are labelled 'Instant' - apply the effects of such Endeavour Rewards immediately. Other Endeavour Rewards are labelled 'Persistent' - make a note of such Endeavour Rewards in your [Order of Battle](#). Before each battle, when mustering your [Crusade army](#), you can select one of your Persistent Endeavour Rewards to be active for that battle. If you do, add 1 to your Crusade army's total [Crusade points](#) for that battle.

IMPERATIVE (D6 1-3)		ENDEAVOUR REWARD
	EMPEROR'S DOMAIN	Instant - Gain 3RP.
	WRATH OF THE EMPEROR	Instant - You can select two additional units to be Marked for Greatness after the battle in which you completed your final Imperative.
	MAKE AN EXAMPLE	Instant - Every unit from your Crusade force gains 1XP.

	SHADOWED DIRECTIVE	Instant - Every unit in your Crusade force gains 1XP. If that unit earned XP from an Agenda in the battle in which you completed your final Imperative, it gains 2XP.
	ABSOLUTE MASTERY	Instant - Your WARLORD from the battle in which you completed your final Imperative gains 5XP.

	EMPEROR'S WILL BE DONE	Persistent - Once per battle, you can target a friendly unit with the Command Re-roll Stratagem or the Rapid Ingress Stratagem for OCP.
	INSPIRATIONAL EXAMPLE	Instant - The ADEPTUS CUSTODES CHARACTER that completed this Imperative gains a Battle Honour.

Dishonour

Each time your [Crusade force](#) abandons an [Endeavour](#), you must determine a Dishonour from the table (see Dishonour table). You can either select the Dishonour that you feel is most appropriate or randomly determine one by rolling one D6 and applying the corresponding result.

DISHONOUR

D6

COMMAND IN QUESTION

Failing to uphold the trust of their comrades and their Emperor is a black mark indeed for a Shield-Captain.

Select one **SHIELD-CAPTAIN** unit from your **Crusade force**. That unit gains the **Disgraced** Battle Scar and the **Mark of Shame** Battle Scar from the main Crusade rules. If your Crusade force does not contain any **SHIELD-CAPTAIN** units, re-roll this result.

**DAMAGE LIMITATION**

Progress must for now be set aside in favour of repairing the damage already done by recent failures.

Halve the XP (rounding down) that units in your **Crusade force** earn for a number of battles equivalent to the number of your **Endeavour's Imperatives** that were not completed (the previous battle counts as the first of such battles).

**PETITION THE TOWER OF HEGEMON**

It is no easy thing for the Adeptus Custodes to admit they are unequal to a task, but in this instance reinforcements have been requested and the Custodians must make do until they arrive.

Reduce your **Requisition** points to 0. You cannot gain Requisition points for a number of battles equivalent to the number of Imperatives of your **Endeavour** that were not completed (the previous battles counts as the first of such battles).

BATTLE SCARS

When an **ADEPTUS CUSTODES** unit gains a **Battle Scar**, you can use the table presented here to determine which Battle Scar that unit has gained.

BATTLE SCARS

D6

IMMEDIATE THREATS

Knowing the myriad threats facing the Golden Throne, some sodalities of Custodians have been known to develop a shortened focus on the foes directly within their blades' reach.

- In your **Charge phase**, each time this unit declares a charge, you can only select the closest enemy unit as the target of that charge.
- Each time a model in this unit makes a melee attack, you can re-roll a Wound roll of 1.

**LIONS, NOT WOLVES**

Sometimes, the Custodians tendency to fight as individuals becomes so pronounced that it can detract from their wider strategic vision.

- This unit loses its **Martial Ka'tah** ability.
- Each time a model in this unit makes a melee attack, you can re-roll a Hit roll of 1 and you can re-roll a Wound roll of 1.

**SENSE OF INSUFFICIENCY**

It has been known for Custodians, faced by the rarely seen spectre of failure, to throw themselves into studying the ka'tahs to the exclusion of all else, determined not to be found wanting again.

INFANTRY unit only

- Change the Objective Control characteristic of models in this unit to 0. It cannot be increased by any means.
- Each time this unit is selected to fight, both **Ka'tah Stances** are active for this unit, instead of only one.

AGENDAS

If your Crusade army includes any **ADEPTUS CUSTODES** units, you can select Agendas from those presented here.

PURSUIT OF EXCELLENCE

The Custodians know that no matter how honed their skills or focused their thoughts, the defence of the Golden Throne always demands more and better.

At the end of the battle, the **ADEPTUS CUSTODES** unit from your [Crusade army](#) with the lowest XP (if two or more are tied, select one of them) gains 1XP for each of the following that are satisfied:

- That unit is not destroyed.
- That unit is within range of an objective marker outside your deployment zone that you control.
- That unit destroyed one or more enemy units during the battle.
- That unit destroyed three or more enemy units during the battle.

JUDGEMENT DELIVERED

A devastating victory is a great deterrent to potential foes, sending ripples of dismay through those who might otherwise have thought to threaten the Throneworld.

At the end of the battle, if there are no models from your opponent's [Crusade army](#) remaining on the battlefield, each **ADEPTUS CUSTODES** unit from your Crusade army that is on the battlefield gains 2XP.

GREAT TITHE

The work of harvesting powerful psykers to feed the Golden Throne is never-ending. The same is true of the quest to purge the galaxy of those witches deemed powerful enough to present a threat to the Emperor or his realm.

Each time an enemy **PSYKER** unit is destroyed, if that enemy unit was destroyed by an **ANATHEMA PSYKANA** unit from your [Crusade army](#), that **ANATHEMA PSYKANA** unit gains 2XP. Otherwise, the **ANATHEMA PSYKANA** unit from your Crusade army that was closest to that enemy unit when it was destroyed gains 1XP.

UNTO THE DARK CELLS

More than one dread entity or forbidden artefact has slipped away from the cells beneath the Emperor's Palace since the emergence of the Great Rift. Seizing and recovering these is a rewarding priority for many Custodians.

At the end of the battle, if you control more objective markers in No Man's Land than your opponent, you can select up to three **ADEPTUS CUSTODES** units within range of objective markers in No Man's Land that you control. Each selected unit gains 2XP.

REQUISITIONS

If your Crusade army includes any **ADEPTUS CUSTODES** units, you can spend [Requisition](#) points (RPs) on any of the following Requisitions.

ARTEFACTS OF THE VAULTS

1RP

There are ancient devices and weapons within the vaults of the Emperor's Palace that only the Custodians are entrusted with their use.

Purchase this [Requisition](#) before a battle. Select one **ADEPTUS CUSTODES CHARACTER** model from your [Crusade army](#) (excluding **EPIC HERO** models), then select one of the following for that model:

- You can only select this option if your [Crusade force](#) is on an [Endeavour](#). Select one [Artefact of the Vaults](#). That model gains that Artefact of the Vaults until your Crusade force completes its active Imperative or abandons its [Endeavour](#). Your Crusade force can only have one Artefact of the Vaults at any time.
- Remove one Enhancement from that model and replace it with another that it is eligible to have.

EARNING OF A NAME

1RP

The Custodians earn new names for their tallies in honour of especially mighty deeds.

Purchase this [Requisition](#) after a battle in which the enemy **WARLORD** was destroyed by an **ADEPTUS CUSTODES CHARACTER** model (excluding **ANATHEMA PSYKANA** and **EPIC HERO** models) from your [Crusade army](#). Generate an additional Honour-Name for that **CHARACTER** model (this has no rules purpose) then gain the following ability:

Earned Name: Each time this model's unit is selected to fight, both Ka'tah Stances are active for that unit, instead of only one.

SUPERHUMAN FOCUS

1RP

The Adeptus Custodes are masters at seizing control of rapidly developing situations and applying their talents to alter the strategic parameters in their favour.

Purchase this [Requisition](#) after you have rolled to determine your [Imperatives](#). Select one of those Imperatives, then select a different Imperative to replace it (this must be unique to the other Imperatives you have rolled and you can only use this Requisition once per [Endeavour](#)).

PROVEN METTLE

1RP

Amongst the meritocratic structures of the Adeptus Custodes, warriors may prove themselves worthy of command in many ways.

Purchase this [Requisition](#) when an [ADEPTUS CUSTODES INFANTRY](#) or [MOUNTED](#) unit from your [Crusade force](#) (excluding [CHARACTER](#) and [ANATHEMA PSYKANA](#) units) reaches 30XP or more. Add one [ADEPTUS CUSTODES CHARACTER](#) unit to your [Order of Battle](#) (excluding [EPIC HERO](#) units). You cannot purchase this Requisition if doing so would cause your total Points Limit to exceed your Crusade force's [Supply Limit](#). That [ADEPTUS CUSTODES CHARACTER](#) starts with 30XP and gains the appropriate number of Battle Honours for its [rank](#). Then, change the XP of the [ADEPTUS CUSTODES](#) unit that reached 30XP or more to 6XP, remove any Battle Honours it has until it has no more than one, and update its [Crusade card](#) accordingly.

BATTLE TRAITS

When a [ADEPTUS CUSTODES](#) unit gains a [Battle Trait](#), you can use one of the tables presented here to determine which Battle Trait that unit has gained.

You can target this unit with [Stratagems](#) even while it is [Battle-shocked](#).

GENALCHEMIC WARDING

The genetic alchemy that saturates these warriors' physiologies has been tempered by many perils to resist more strongly than ever the corrupting touch of the warp.

Each time a [Psychic Attack](#) targets this unit, subtract 1 from the [Hit roll](#).

ADEPTUS CUSTODES MOUNTED UNITS

D6

ON GILDED WINGS

These warriors become veritable streaks of golden light as they sweep down upon their foes.

These Custodians push their mounts to the limit, the better to capitalise upon the element of surprise.

HUNTERS' STRIKE

The Sisters of Silence know that witches are best struck down before they have a chance for trickery.

Each time this unit is selected to fight, if this unit made a Charge move this turn, until the end of the phase, add 1 to the Attacks characteristic of melee weapons equipped by models in this unit.

RELENTLESS PURSUIT

Once on the trail of their quarry, these Null Maidens run them down with merciless determination.

You can re-roll Advance and Charge rolls made for this unit.

RAPID PROSECUTION

These Sisters of Silence are ruthless and dogged in their pursuit of the enemy.

This unit is eligible to either shoot or [declare a charge](#) (but not both) in a turn in which it Advanced.

CRUSADE RELICS

ARTIFICER RELICS

Aurulent Warding

Auramite can be etched with protective wards. Few have the skills or knowledge to amend the Custodes' armour in such a way, and the process takes many months to complete.

Once per turn, you can re-roll one saving throw made for the bearer.

EMPEROR'S LIGHT

Said to have been crafted from a crystallised shard of the Emperors glorious light, this misericordia has been borne into battle by three separate Captain-Generals. It is reputed to flood the heart of its victim with searing radiance.

ADEPTUS CUSTODES INFANTRY model only. The bearer is equipped with the following melee weapon in addition to its other weapons:

MELEE WEAPONS	RANGE	A	WS	S	AP	D
Emperor's Light <u>DEVASTATING WOUNDS</u> <u>EXTRA ATTACKS</u>	Melee	3	2+	5	-2	1

ANTIQUITY RELICS

VERACITY, THE SWORD OF OBLIVION

This blade is the pattern upon which all executioner greatblades were built. Its substance is capable of cutting any material without the need of a power field or disruption generator.

KNIGHT-CENTURA model equipped with an executioner greatblade only. The bearer's melee weapons gain the **[LANCE]** and **[SUSTAINED HITS 1]** abilities.

LEGENDARY RELICS

LUCENT AUREOLE

This gleaming halo is an ancient artefact fitted with a powerful conversion field that offers heightened protection to the wearer.

The bearer has a 3+ **invulnerable save**.

APOLLONIAN SPEAR

The Apollonian Spear was wielded by Constantin Valdor, the first Captain-General of the Custodes. After his disappearance, the spear was placed in the vaults of Terra. Only rarely now, in the most terrible of circumstances, is it brought from there and wielded by the mightiest of the Custodians.

SHIELD-CAPTAIN model only. Once per battle, at the start of the **Fight phase**, the bearer can use this ability. If it does, add 3 to the Strength and Attacks characteristics of the bearer's melee weapons until the end of that phase.

ARTEFACTS OF THE VAULTS

Artefacts of the Vaults are rare Crusade Relics from ages past, kept in stasis deep within the vaults of the Imperial Palace. They cannot be selected as normal. Instead, if your **Crusade force** is on an **Endeavour**, they can be temporarily used by **ADEPTUS CUSTODES CHARACTERS** to turn the tide of key battles by using the Artefacts of the Vaults Requisition.

Each time a model gains an Artefact of the Vaults, make a note on its **Crusade card** and increase its **Crusade points** total by 1. Artefacts of the Vaults can be removed before or after a battle, and are also removed when your Crusade force completes its active Imperative or abandons its Endeavour. Each time a model loses an Artefact of the Vaults, reduce its Crusade points total by 1.

ARTEFACTS OF THE VAULTS

ARAE-SHRIKE

A counter-intelligence device that twists and distorts electromagnetic signals, arae-shrikes are considered blasphemous in principle and arcane function by the Adeptus Mechanicus.

Enemy units that are set up on the battlefield as [Reinforcements](#) cannot be set up within 12" of this unit.

MORTIS GYRE

The Mortis Gyre is an orb of energy that, when activated, seeks out its victim and rapidly embeds itself into their consciousness. The victim is shown a horrifying vision of their impending doom and a killing blow is delivered to send them to that fate.

Once per battle, when the bearer is selected to fight, it can activate the Mortis Gyre. If it does, until that fight is resolved, melee attacks made by this model that target an **INFANTRY** unit have the [\[DEVASTATING WOUNDS\]](#) ability.

TWILIGHT PALLIUM

What appears to be a cloak of office can be activated to envelop the bearer in the very fabric of its surrounding reality, allowing them to traverse atomically with a thought and re-emerge with a blink.

Once per battle, at the end of any of your phases, the bearer can use the Twilight Pallium. If it does, remove the bearer's unit from the battlefield and set it up again anywhere on the battlefield more than 3" horizontally away from all enemy units. The bearer's unit is not [eligible to charge](#) in a turn in which it was set up in this manner unless it is more than 9" horizontally away from all enemy units.

ANATHEMATIC DIADEM

A circlet of spiritual darkness believed to hail from the earliest eras of Mankind, this sinister artefact focuses null energies in a vortex around its wearer.

The bearer gains the following ability:

Anathematic Diadem (Aura): When an enemy model within 12" of this model makes an attack with a [Psychic weapon](#), subtract 1 from the [Wound roll](#).

PARELDOR'S CADUCATRIX

This immeasurably ancient auto-medicae device stems from an age of learnings now long lost. It meshes seamlessly with any suit of battle armour and exudes filament probes through the bearer's body, there to dispense remarkable panaceaic elixirs should it detect severe physical or mental trauma.

Once per battle, in your [Command phase](#), the bearer can regain up to D6 lost wounds.

AURIFEROUS ORB

The Auriferous Orb appears to be a sphere of solid gold, but its simple beauty belies its dangers. When it detonates, it unleashes beams of such pure, radiating light that it kills those enemies of the Emperor it does not blind.

The bearer is equipped with the following ranged weapon in addition to its other weapons:

Blinding Light: Each time a unit is hit by this weapon, it is blinded until the start of your next turn. While a unit is blinded, each time a model in that unit makes an attack, subtract 1 from the [Hit roll](#).

RANGED WEAPONS	RANGE	A	BS	S	AP	D
Auriferous Orb ANTI-INFANTRY 4+ BLAST BLINDING LIGHT DEVASTATING WOUNDS	8"	D3	2+	1	0	1

EPOCH AUSPICE

The Epoch Auspice resembles an unremarkable book - with its battered cover and worn pages - but this appearance hides the strange technologies bound within that allow the bearer to create a temporal bubble around themselves and nearby allies.

Once per battle, at the start of the [battle round](#), the bearer can deploy the Epoch Auspice. If it does, until the end of the battle round, each time an attack targets the bearer's unit, subtract 1 from the [Wound roll](#).

ARMY RULE

Focused Ka'tah

In the claustrophobic battlegrounds of voidship interiors, even the lone champions of the Adeptus Custodes find benefit in focussing their efforts upon certain, particularly beneficial fighting styles.

Units from your army with the [Martial Ka'tah](#) ability retain that ability and gain this one.

However, you no longer select a Ka'tah Stance each time a unit with the Martial Ka'tah ability is selected to fight. Instead, at the start of the [Fight phase](#), you can select one Ka'tah Stance. Until the end of the phase, the selected Stance is active for your army and units from your army with the Martial Ka'tah ability gain the relevant ability. Each Ka'tah Stance can only be selected once per battle.

DETACHMENT RULE

Overwhelming Magnificence

To confront the towering, auramite-clad warriors of the Adeptus Custodes across an open battlefield is terrifying enough. To meet them in the cramped confines of a voidship is so overwhelming as to render many foes witless.

While an enemy unit is within [Engagement Range](#) of one or more **ADEPTUS CUSTODES** units from your army, subtract 1 from the Objective Control characteristic of models in that enemy unit.

ENHANCEMENTS

Voidstrider

At home in voidborne warfare, this superhuman warrior is able to move with marked purpose and speed.

Add 2" to the bearer's Move characteristic.

Mantle of the Emissary

This ancient cloak symbolises its wearer's dedication to a vision-sent mission from the Emperor, and fills them with overwhelming purpose and determination.

The bearer has an Objective Control characteristic of 5.

STRATAGEMS

INESCAPABLE VENGEANCE

VOYAGERS IN DARKNESS – STRATEGIC PLOY STRATAGEM

The incredible sensory acuity of the Custodians' wargear coupled with their superhuman senses means no foe can hide from them.

WHEN: Your [Movement phase](#).

TARGET: One **ADEPTUS CUSTODES** unit from your army (excluding **ANATHEMA PSYKANA** units) that has not been selected to move this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes a [Pile-in](#) or [Consolidation move](#), it can ignore [Walls](#) and other models for the purposes of determining which enemy units are [visible](#) to its own.

BREACHING BEHEMOTHS

VOYAGERS IN DARKNESS – STRATEGIC PLOY STRATAGEM

When unleashed aboard an enemy voidship, Custodians simply smash a path through any who stand against them by their sheer armoured might.

EFFECT: Until the end of the phase, each time your unit makes a [Normal](#), [Advance](#) or [Fall Back move](#), models in your unit can move through other models as if they were not there. In addition, any [Desperate Escape tests](#) taken for models in your unit are automatically passed.

ARTIFICER ROUNDS

VOYAGERS IN DARKNESS – BATTLE TACTIC STRATAGEM

These hand-crafted bolt shells are made to fragment with particular ferocity, making them ideal for boarding actions.

WHEN: Your [Shooting phase](#).

TARGET: One **ADEPTUS CUSTODES** unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, ranged weapons equipped by models in your unit (excluding ballistus grenade launchers) have the [\[SUSTAINED HITS 1\]](#) ability while targeting units within 6".

Even the boldest foes falter before the sudden and unstoppable onslaught of the Allarus Terminators.

WHEN: Your [Charge phase](#), just after an **ALLARUS CUSTODIANS** unit from your army ends a [Charge move](#).

TARGET: That **ALLARUS CUSTODIANS** unit.

EFFECT: Each enemy unit within [Engagement Range](#) of your unit must take a [Battle-shock test](#), subtracting 1 from the result.

BLACK SHIP GUARDIANS

Whether fighting furiously to prevent enemies from boarding one of the sinister Black Ships and freeing its psyker inmates, or sweeping into an enemy vessel or installation to seize and imprison powerful witches, the Sisters of Silence are a force to be reckoned with in void warfare.

MUSTERING A BOARDING PATROL

You can include up to two of the following units (duplicates are not allowed):

- **KNIGHT-CENTURA**

If you include only one other **CHARACTER** unit, you can include up to one of the following units:

- **INFANTRY SHIELD-CAPTAIN**
- **VALERIAN**

You can include up to three of each of the following units:

- **PROSECUTORS** (5 or 10 models)

Focused Ka'tah

In the claustrophobic battlegrounds of voidship interiors, even the lone champions of the Adeptus Custodes find benefit in focussing their efforts upon certain, particularly beneficial fighting styles.

Units from your army with the **Martial Ka'tah** ability retain that ability and gain this one.

However, you no longer select a Ka'tah Stance each time a unit with the Martial Ka'tah ability is selected to fight. Instead, at the start of the **Fight phase**, you can select one Ka'tah Stance. Until the end of the phase, the selected Stance is active for your army and units from your army with the Martial Ka'tah ability gain the relevant ability. Each Ka'tah Stance can only be selected once per battle.

DETACHMENT RULE

Priority Quarry

With merciless efficiency, the Sisters of Silence mark their priority prey amidst the maelstrom of shipboard combat, then focus on their elimination above all else.

At the start of the first **battle round**, you can select up to two enemy units to be your army's quarry, one of which must be your opponents **WARLORD**. Each time an **ANATHEMA PSYKANA** unit from your army makes an attack that targets one of your army's quarries, re-roll a **Hit** roll of 1. Each time an **ANATHEMA PSYKANA** unit from your army **declares a charge**, it can include one or more of your army's quarries as targets of that charge, even if they are not **visible** to it.

ENHANCEMENTS

The Vratine Aquila (Aura)

This ancient device is said to have been crafted for use during a vital conclave during the waning days of the Great Crusade, wreathing its bearer in energy veils.

ANATHEMA PSYKANA model only. While a friendly **ANATHEMA PSYKANA** unit is within 3" of the bearer, models in that unit have a 4+ invulnerable save.

Sinister Presence (Aura)

So deeply unsettling is the null aura surrounding this warrior that it causes unreasoning paranoia to spread amongst her foes, shattering their focus.

ANATHEMA PSYKANA model only. While an enemy unit is within 6" of the bearer (when measuring this distance, **Walls** and closed **Hatchways** are ignored), that unit cannot **Seize objective markers** and, in your opponent's **Command phase**, that unit must take a **Battle-shock** test. This Enhancement cannot cause a unit to take two **Battle-shock** tests in the same phase.

STRATAGEMS

BLADES OF THE VIGILATORS

BLACK SHIP GUARDIANS – BATTLE TACTIC STRATAGEM

Though intended for lopping the heads from witches, the Vigilators' long blades also allow for skilful parrying of incoming attacks.

WHEN: **Fight phase**, just after an enemy unit has selected its targets.

TARGET: One **VIGILATORS**, **ALEYA** or **KNIGHT-CENTURA** equipped with an executioner greatblade unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, each time an attack targets your unit, subtract 1 from the **Wound** roll.

FOCUSED FEAR

BLACK SHIP GUARDIANS – BATTLE TACTIC STRATAGEM

Fighting in the confines of a voidship heightens the fearful aura of the Sisters of Silence, fouling their foes' aim and weakening their sword arms.

WHEN: Your opponent's **Shooting phase** or the **Fight phase**, just after an enemy unit has selected its targets.

TARGET: One **ANATHEMA PSYKANA** unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the attacking unit has finished making its attacks, each time an attack targets your unit, worsen the Armour Penetration characteristic of that attack by 1.

CORNERED PREY

BLACK SHIP GUARDIANS – STRATEGIC PLOY STRATAGEM

Once they have their quarry trapped within a section of the voidship, the Silent Sisters relentlessly run them to ground.

WHEN: Your **Movement phase**, just after an **ANATHEMA PSYKANA** unit from your army **Falls Back**.

TARGET: That **ANATHEMA PSYKANA** unit.

EFFECT: Until the end of the turn, your unit is eligible to shoot and **declare a charge** in a turn in which it **Fell Back**.

PUNISHMENT OF THE PROSECUTORS

BLACK SHIP GUARDIANS – BATTLE TACTIC STRATAGEM

The Prosecutors cut down without mercy all who dare stand between the Silent Sisters and their prey.

WHEN: Your **Shooting phase**.

TARGET: One **PROSECUTORS** unit from your army that has not been selected to shoot this phase.

EFFECT: Until the end of the phase, improve the Armour Penetration characteristic of ranged weapons equipped by models in your unit by 1. In addition, each time a model in your unit makes a ranged attack, on a **Critical Wound**, improve the Armour Penetration characteristic of that attack by an additional 1.
